

Success is within every child's reach.

Facts every parent should know about Ace it! Tutoring.

If you want to see your child get back on track in reading or math, Ace it! Tutoring is your most effective and most convenient choice.

We start with a skills assessment to determine which specific skills your child needs to learn. Your child is then placed with a small group of students with similar learning needs. Our tutors pay special attention to each child and provide regular feedback on their progress. Your child *will* enjoy success in school, and Ace it! Tutoring provides the extra bit of help to get there.

Small Classes Mean More Attention

Ace it! Tutoring classes are limited to just eight students or less. Students benefit from working together, as well as on their own. Each student receives individual attention from their tutor, with rewards for effort and results.

Parent and Teacher Involvement

(see other side for more details of our tutoring program)

Doing better in school will make your child happier and more confident.

The federal law known as the No Child Left Behind Act requires the state to identify schools that need to improve. It also provides for free tutoring for eligible students at those schools.

Based on standardized test scores, your child's school is on the list of schools in need of improvement, so your child may be eligible for free tutoring.

We encourage you to take advantage of this great opportunity to improve your child's math or reading skills. Your local school district has put together a list of tutoring service providers that meet their standards. As the parent or guardian of an eligible child, you can choose any provider on that list.

We hope you'll choose Ace it! Tutoring to give your child the skills and tools they need to ensure their academic success!

Powered by Sylvan: Sylvan Learning is the leading provider of in-center and live, online tutoring at home to students of all ages and skill levels. With nearly 30 years of experience and nearly 1,100 centers located throughout North America, Sylvan Learning Center has positively changed the lives of over two million students and families.
